

## **APPENDIX I**

### **(MARKED-UP VERSION OF AMENDED CLAIMS)**

1. (Four Times Amended) A frame kit for an IC card, comprising:
  - a generally U-shaped frame fabricated from an injection molding material and having an inner wall defining an internal space;
  - a first panel fabricated from metal material and including a L-shaped locking member having a hanging portion and a locking claw portion with the hanging portion and a rear segment of the locking claw portion embedded and held in the frame to connect the first panel to the frame, where a front segment of the locking claw portion projects out from the inner wall and into the internal space; and
  - a second panel fabricated from metal material and having an engaging locking member having an engaging hole which is engageable with the front segment of the locking claw portion to connect the second panel to the frame.
